## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

**In re Application of:** Wang et al.  
**Serial Number:** 10/825,685  
**Filed:** April 16, 2004  
**Group Art Unit:** 1774  
**Confirmation No.:** 8860  
**Title:** Organic Luminescent Compounds and Methods of Making and Using Same  
**Examiner:** YAMNITZKY, Marie Rose  
**Agent Ref. No.:** 2002-033-03US

August 28, 2006

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA  
22313-1450

Dear Sir,

### RESPONSE TO RESTRICTION REQUIREMENT

This is in response to the Office Action dated August 15, 2006. Applicants hereby provisionally elect for prosecution in this application Group I (claims 1-7, 10 and 19-22), directed to compounds of the invention. Applicants' species selection with respect to the compound of general formula (I) is compound 1-methyl-2-(9-anthryl)imidazo[4,5-f]-[1,10]phenanthroline ("MePhenImAn") (3). That is, applicants elect a species wherein each of  $X^1$ ,  $X^2$ ,  $X^3$ , and  $X^4$  is nitrogen. The Examiner has indicated that she will examine Groups I, III, and IV together, subject to an election of species with respect to the compound of formula I and an election of species with respect to the product/device of Group IV. Accordingly, with respect to the latter, applicants elect an electroluminescent device.

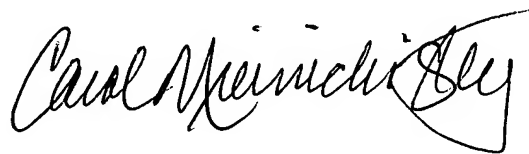

This group election is made with traverse, as applicants believe that it is arbitrary and inappropriate to divide the compound claims of the invention (group I) from, at least, the method of synthesizing the same compounds (group II), and compositions (group III) or devices (group IV)

containing the same compounds. If a claimed compound is found to be novel, then methods of synthesis of the claimed compound and products or compositions of matter containing the claimed compound would necessarily also be novel. Applicants submit that rejoining groups I, II, III, and IV presents no further search burden on the Examiner. Applicants hereby request rejoinder of groups I, II, III, and IV.

If the Examiner has any questions about the instant Response or the application, she is asked to telephone Carol Miernicki Steeg (Reg. No. 39,539) or Stephen Scribner (Reg. No. 44,452) at 613-533-2342.

Any petition that may be required is hereby petitioned. Please charge any fees that may be required, for which no cheque is enclosed, to Deposit Account No. 17-0110.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Carol Miernicki Steeg". The signature is fluid and cursive, with a large loop at the end of the last name.

Carol Miernicki Steeg
